

Miysis 3D Studio

2019 Presentation

Who we are

Short story

Miysis is a belgian studio created in 2007 that specializes in the creation of high-end 3D images and animations for design, architecture and industry sectors.

We employ team members with highly diverse skill sets. This allows us to grasp and deal with even the most technical elements, but also to manage more purely creative and artistic endeavors.

In only a few years time, the team expanded and the client list grew. This allowed us to hire candidates with different profiles over the last number of years. To this day, Miysis has continued to grow, progress, and develop, and is currently employing 25 highly dedicated team members.

The diverse skillset of our team is leveraged to create our own tools and workflows. Thanks to this, we have developed a proprietary pipeline that allows us to offer our clients high quality in our images and animations, while maintaining reasonable prices.

What we do

Pictures / Animations / Interactive applications

Miysis offers a variety of products, ranging from still images for displays, catalogs featuring 3D animations, all the way to interactive 3D applications.

Still images: Our 3D images allow you to replace real photographs with digital photorealistic images. This offers you a great deal of flexibility when adapting framing, lighting, materials, etc.

Animations: We've continuously invested in new, highly efficient material. We are therefore equipped with a vastly innovative infrastructure, permitting the creation of HD animations in a very short time span - and at an unbeatable price. We have a great deal of expertise in the creation of architectural films and product visualization animations.

Interactive applications: Miysis develops custom dynamic tools. These applications allow you to showcase your projects and products in an intuitive and dynamic way. These contents are created with the very latest real-time technologies.

Meet the team

Meet the team

The best people for the best results

Our team is composed of 25 people:

- 1 Designer**
- 18 CG Artists**
- 3 Real-time CG Artists**
- 2 Developers**
- 1 Administrative Assistant**

We do not outsource any part of our work. Everything is carried out internally, guaranteeing a high level of discretion, and on-time delivery.

In 2014, we had the opportunity to buy the castle of Voroux-Lez-Liers which became our office. We are lucky to be able to grow in this beautiful historical building.

They work with us

Here are some of our beloved customers

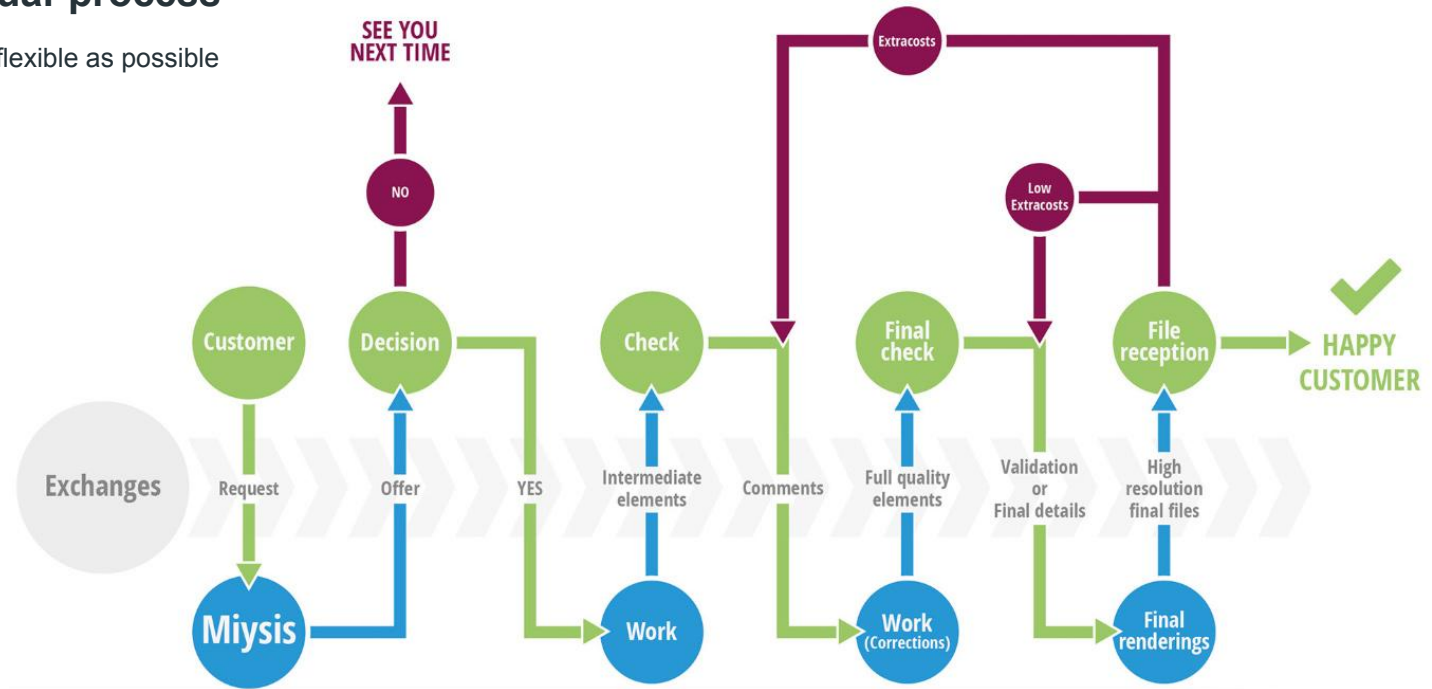

We work for multiple clients across varying domains all over Europe, and worldwide.

The way we work

Here is our usual process

We always try to be as flexible as possible
